

# National Epidermolysis Bullosa Dressing Scheme (NEBDS) Application Form

**About NEBDS:** NEBDS aims to support better health outcomes for people with Epidermolysis Bullosa (EB) by improving access to subsidised dressings, bandages and ancillary products used in the management of their chronic conditions. The Scheme is funded by the Australian Government.

**Eligibility to NEBDS:** Applicants must be clinically diagnosed with EB by an approved Specialist Health Care Professional and be an Australian citizen or resident who is eligible to receive Medicare benefits. Applicants with all subtypes of EB (simplex, junctional, dystrophic, kindler EB or their subtypes) and related blistering disorder epidermolytic ichthyosis, are eligible to access dressings through the Scheme. Proof of clinical diagnosis by way of diagnostic testing is required or the genetic results of a family member may be provided as supporting evidence of clinical diagnosis. For more information regarding supporting evidence requirements see: <https://www.ebdressings.com.au/eligibility/>. Where a new applicant's eligibility to access the scheme is unclear (e.g. in the absence of diagnostic testing), the application can be referred to the Clinical Advisory Committee (CAC) to assess eligibility for access.
